

The St. Mary's University Department of Engineering presents the

ENGINEERING

ONLINE SUMMER CAMP

JULY 12-15 | ONLINE | 9 A.M. TO 4 P.M. (WITH BREAKS)

St. Mary's University is offering a four-day virtual camp for seventh through ninth graders that will teach them the basics behind engineering.

CONCEPTS

Participants will present their engineering concepts to the class and partake in virtual competitions. Campers will learn basic engineering concepts in computer-aided design and 3D printers, structural engineering, fluid dynamics, electrical engineering and thermodynamics.

REQUIREMENTS

Campers will need a personal computer or laptop with internet access to run Zoom and access email to receive links and files.

To apply, visit www.stmarytx.edu/home-engineering-camp.

COST

\$200 per student

DEADLINE TO APPLY

Wednesday, July 7

GRADES 7-9

Limited to 20 students.
