What are the most significant barriers or challenges your program is currently facing (e.g., enrollment, faculty resources, student support, accreditation requirements)?

Responses will not be used to evaluate or penalize program.

The information collected is for the purpose of informing broader understanding, identifying trends, and guiding future policy.

-Funding for students to enroll and effectively matriculate through the program -
Limited flexibility in elective courses for students

What successes or available resources have contributed most to your program's growth, effectiveness, or ability to support students?

Responses will not be used to evaluate or penalize program. The information collected is for the purpose of informing broader understanding, identifying trends, and guiding future policy.

-Students can complete the program on a part-time basis as well as full-time, which helps to alleviate some of the financial burden -The university is making a more concerted effort towards better understanding the nuances of graduate education, especially in terms of how it differs from undergraduate education

What is CACREP doing well for your program that you appreciate?

-The standards and faculty ratios are helpful when dealing with changing university policies -Our liaison is always responsive when we have questions or concerns about implementing the standards

What would you like to see CACREP do differently in its current services?

-I am not sure if this can be addressed, but we have limited options for elective courses for our students due to the number of accreditation standards we have to meet. I wonder if there is a way to combine/reduce the number of standards to help foster more elective hours for students.

What services or resources would you like to see CACREP add or develop that would better serve you and your program?

-You pretty much implemented any suggestion I have for this section. I appreciate all you do for the counseling profession!
